

Sage Peak

Date

Wed, 01/12/2022 - 14:00

Activity

Skiing

Poor quality photo attached... Observed what appeared to be a very large crown on the NE aspect of Sage Peak this afternoon. Viewed from the base of Skyline Ridge near Cabin Creek Cabin. Due to distance/lighting/lack of binoculars we could not 100% determine if this was actually a large crown or not but fairly confident that it was.

Region

Southern Madison

Location (from list)

Sage Peak
