

Whumpfs and Shooting Cracks on Woody Ridge

Woody Ridge

Cooke City

2/22/2022

Code

Latitude

44.97390

Longitude

-109.92400

Notes

I had two whumpfs and shooting cracks of small wind slabs (10cm thick) near the top of Woody Ridge on a W [aspect](#). The top of Woody usually has a weak and thin snowpack and gets scoured or loaded, so I wasn't surprised.

No other signs of instability observed.
