

Bailed to more protected terrain

Date

Wed, 01/04/2023 - 16:20

Activity

Skiing

Submitted via instagram: "Ectp12 and 22 at 85 and ~25-30 cm (less planar) respectively on S [aspect](#) we did not ski and bailed from after initial pit ~300m away in slightly more protected terrain yielded ectN. Was dug adjacent to ~33-35 degree slope. Slope is located near the head of Flanders Basin"

Region

Northern Gallatin

Location (from list)

Flanders Creek
