Activity

Skiing

Skied the second meadow this morning. S1 to S2 precipitation while we were in the area; cloud ceiling was around 8000' around 7am and lifted to ~9000' by 9:30am; calm winds. Ski tracks from yesterday had ~2-6" on them. Snow was deep and dry; no signs of avalanches or instability were observed.

Region

Northern Gallatin

Location (from list)

History Rock

Observer Name

E. Webb
